

For each of the text sets, there are some additional suggestions of articles listed and a few possible new questions the club might discuss. Note that these are just a few of the questions students could discuss—the best situation would be that they come up with their own questions—the ones below are only meant as a guide. Students can also discuss ideas rather than questions.

As always, please preview these sets before giving them to your students to make sure they are best-suited for your particular class.

Killer Whales and Aquariums Additional Text Set

Should killer whales be kept in captivity at all?

Should there be aquariums?

- “Aquariums and Marine Parks” from the PETA website
